

# CURRICULUM VITAE

Graduated from Anáhuac University in Actuary Studies, Mexico City, he also obtained a Master Degree in Business from Stanford University.

Carlos, a regular speaker in different companies' financial forums, is considered an international expert in Credit Collection and Recovery. He has participated in the conceptualization and startup of Collection Centers in varied countries of Latin America such as Brazil, Central America, Chile, Colombia, Mexico and Venezuela.

He is the founder of Inffinix Software and his current position is General Director. The company is entirely devoted to helping its clients increase their credit portfolios through an integral automatization in the collection process. Formerly, Mr. Rodríguez was General Director of Ingres – Mexico - and held many positions in Infosistemas Financieros; both companies belonging to the Inffinix Group.

Carlos regularly writes articles which are published in diverse specialized financial magazines for Telephone and Collection Centers and he is a member of different international associations in this field.
