

RESUMÉ

Steve Bederman is Chief Executive Officer at TouchStar, which is one of the fastest growing global telephony solutions providers in the industry. Since 1998, Steve has lead the growth of the company from just a few employees in a single office location, to over 200 employees in six international offices today.

Steve's main focus at TouchStar is to create and maintain business relationships in a manner that fosters goodwill, loyalty, honesty, integrity, and unparalleled commitment through TouchStar's Core Values. His work has positively impacted the quality and direction of unified business communications throughout the world.

Steve is well-regarded as a renaissance businessman within call center industries around the globe. He frequently travels internationally to share his insight and industry expertise with peers, colleagues, and fellow industry providers. Steve continually seeks opportunities where his opinions and ideas can influence the trends of the industry.

Steve began his passion for business by earning a degree in English and Business Administration at the University of Southern Illinois. Prior to TouchStar, he held multiple executive positions including: Vice President of Strategic Marketing for ChemLawn Corporation/North America, Senior Marketing Consultant with Hinckley and Schmitt, and Senior Partner & Corporate Trainer at Bederman and Associates.

Over the years, Steve has served as a member and officer on various industry boards. His commitment to global economic issues has positioned TouchStar as the leading technology provider for industry partnerships. He is currently Chairman of the Board of Directors for The Foundation for Independent Living, where he devotes a portion of his charitable time.

Steve's personal interests include mountain climbing, skiing, and a deep passion for music. He is a husband, father and trusted businessman, with a keen ability to create lucrative telecommunications opportunities.
